MANUFACTURING & WAREHOUSE APPLICATIONS

LOADING DOCKS

Thermospan® Insulated Sectional Doors

- Available in four models to fit any dock application
- Made with roll-formed integrated struts for added strength
- Foamed-in-place polyurethane insulation core for better thermal efficiency than conventionally insulated steel doors

Sectional Steel Doors

- Five models available with ribbed steel sections that provide high strength at an excellent value
- Available with insulation and vision options
- Impact Panel Option replaces the traditional bottom section on doors exposed to damage from forklifts and other traffic

INTERIOR AREA OPENINGS

Model 880 ADV-Xtreme High Speed, High Performance Door

- Features a flexible bottom with a detachable bottom seal that diminishes the potential for injury
- Safety-focused with monitored wireless safety edge and two sets of obstruction sensors
- Strutless design with a patent-pending breakaway system and push button self-repair

Model 881 ADV-Xtreme High Speed, High Performance Door

- Prevents airborne contaminants from entering a controlled environment
- Reduces air exchange to no higher than .236 cfm/sf (ASTM E-283)
- FDA/USDA-Compliant fabric available and stainless steel guides/hood for easy cleaning

EXTERIOR OPENINGS

Model 885 ADV-Xtreme High Speed, High Performance Door

- Opening speed of up to 50" per second
- Multi-layered, reinforced rubber provides added strength
- Springless design requires minimal interruption for maintenance

Model 800 ADV Advanced Performance Rolling Service Door

- Advanced performance springless design that is 3x faster than a standard rolling service door (up to 24" per second)
- Built with enhanced productivity with less maintenance required for high traffic areas
- Available with a ventilation, vision and custom color options

Model 800 Rolling Service Door

- Slats are designed for easy articulation during rollup with free-acting interlocking joints
- Offers flexibility in substrate materials, three slat profiles, and a variety of standard and custom color options
- Also available in high cycle and advanced performance models

MANUFACTURING AND WAREHOUSE DOOR OPTIONS

Programmable LED Lighting Package

- 3' tall light bar with tri-color LED's provides red, yellow and green lighting for a modern traffic communication system to illuminate the opening area
- Configure lighting based on application. Advanced Kit comes with blinking function
- Available for all ADV-Xtreme High Speed Doors

Impact Section

- Reduces down time and costly repairs with an impact-resistant composite skin surrounding an expanded polystyrene core
- Adjustable to multiple door thicknesses
- Available on Thermospan® Models 150 and 200, Model C-24 and other Wayne Dalton sectional steel doors

Simple Install System

- Time-saving, easy-to-install track and hardware system for warehouse applications
- Includes one-piece vertical lift track and simplified hardware
- Available on Model C-24 and other Wayne Dalton sectional steel doors
