**Wayne Dalton® Luminous® Model 8450 Awarded as a Most Valuable Product  
by *PRODUCTS* Magazine**

*Revolutionary all-glass frameless garage door honored with Silver medal in the ‘Doors and Windows’ category*

**February 15, 2022** - Wayne Dalton, a leading manufacturer of residential and commercial door solutions, has been recognized by *PRODUCTS* magazine as part of the 2021 ‘Most Valuable Product (MVP) Awards,’ earning the Silver medal in the ‘Doors and Windows’ category for its Luminous Model 8450. Inspired by glistening modern skyscrapers, the full-view glass garage door features a streamlined design with no visible framework from the exterior, making it one of the most innovative products of the year among residential construction professionals.

“Being recognized among the year’s best product designs is a testament to Wayne Dalton’s dedication to ingenuity. Geared toward the ever-growing population of homeowners who favor a clean, no-nonsense aesthetic, Luminous Model 8450 instantly adds a sleek, contemporary style to any residential setting,” said Alexandria Ligorotis, Brand Manager at Wayne Dalton.

Luminous Model 8450 integrates with the aesthetics of any residential structure for an ultra-modern, frameless look on an easy-to-maintain garage door. Available for residential (Model 8450 Luminous®) and commercial (Model 464) installation, Luminous all-glass garage doors are built-to-order, can be customized in five glass finishes (Opaque White, Opaque Black, Mirrored Gray, Mirrored Bronze and Translucent Black) and come with a one-year warranty.

Now in its seventh year, the *PRODUCTS* ‘MVP Awards’ program honors the most innovative products for builders, architects, remodelers, and kitchen and bath designers who operate in the residential space. The 2021 winners were selected by a panel of distinguished judges representing expertise across all residential construction disciplines.
