**Wayne Dalton Brings Industry-Leading Garage Door Innovations to the 2023 International Builders' Show**

*The top-tier door manufacturer provides attendees with a first-hand look into its one-of-a-kind Designer Steel and Classic Steel residential collections*

**January 11, 2023** - Wayne Dalton®, a leading manufacturer of residential and commercial door solutions, showcases the Classic Steel Model 9100, Designer Steel Model 9510 and Classic Steel Model 8300 at the National Association of Home Builders (NAHB) 2023 International Builders' Show.

The International Builders' Show is North America's largest residential construction event. Thousands of industry experts gather to educate, exchange ideas, discuss challenges and discover the latest in technology, new product launches and industry trends. Wayne Dalton®, located at booth W3074, provides builders with customized and durable products that enhance home curb appeal.

"Wayne Dalton prioritizes and caters to the needs of residential builders and distributors," Wayne Dalton Brand Manager Alexandria Ligorotis said. "We bring clients' vision to life, from individualized custom solutions to quality products and performance. The Classic Steel Model 9100, Designer Steel Model 9510 and Classic Steel Model 8300 were specifically selected for IBS this year because they are three of our tried-and-true residential door solutions."

## **WAYNE DALTON PRODUCTS TO BE SHOWCASED AT BOOTH W3074**

### **Classic Steel Model 9100**

Classic Steel Model 9100 is trusted by builders as a timeless, high-quality garage door. Model 9100 has consistently remained at the forefront of Wayne Dalton's best sellers due to its ease of installation and extended insulation value compared to non-insulated or polystyrene insulated doors but at a similar price point. Model 9100 offers an insulated R-value\* of 9 through three-layer construction made with steel, polyurethane and Wayne Dalton's ToughGard® backer. Five classic and contemporary panel designs are also available for these doors, along with a wide range of window and finish options.

### **Designer Steel Model 9510**

Known for its striking looks, full-section embossment, pinch-resistant door panels and unique tall sections that can accommodate oversized windows for a dramatic appearance, Designer Steel Model 9510 complements a variety of home styles. From colors and wood grain finishes to windows and hardware, homeowners can customize for the ultimate curb appeal boost, but with the reputable value and performance of the Designer Steel Collection. Designer Steel Model 9510 features foamed-in-place polyurethane insulation with a 12\* R-value.

Additionally, Designer Steel Model 9510 and Classic Steel Model 9100 come with the TorqueMaster® Plus, Wayne Dalton's exclusive counterbalance system that safely and cleanly contains the door's springs and provides anti-drop safety technology.

### **Classic Steel Model 8300**

Classic Steel Model 8300 seamlessly combines robust construction and sleek style designed to make a statement and enhance the architectural beauty of any home. Built for performance and versatility, this door can be curated towards any aesthetic – from modern to

traditional. The door has a vast array of finishes, window and hardware options and five different panel designs. Classic Steel Model 8300 is one of Wayne Dalton's best-insulated residential garage doors. The design of each durable section contains two layers of steel surrounding a thick layer of foamed-in-place polyurethane insulation, resulting in an R-Value of 12.12\*. Its heavy-gauge steel end caps trim out door edges for better appearance, improved strength and insulation damage protection.

The Classic Steel Model 9100, Classic Steel Model 8300 and Designer Steel Model 9510 doors feature various designs, finishes and color alternatives, including the Wayne Dalton® TruChoice® Color System that offers more than 6,000 color choices for the ultimate design flexibility. Additionally, each model comes with multiple wind load options and degrees of impact resistance for use in coastal or high-wind regions, making these doors an excellent solution for virtually all areas of the country.

The 2023 International Builders' Show will be hosted in Las Vegas, Nevada, Jan. 31-Feb. 2. To register, visit: <https://www.buildersshow.com/>.

*\*Wayne Dalton uses a calculated door section R-value for our insulated doors.*
