Wayne Dalton® Leads the Way in Garage Door Innovation at IBS 2024

The leading manufacturer to showcase versatile Wood Grain Impressions™ Collection and Carriage House Steel Model 9405, catering to all residential design preferences

January 31st, 2024 - Wayne Dalton®, a leading manufacturer of residential garage doors and commercial door solutions, will give the National Association of Home Builders (NAHB) 2024 International Builders' Show® a first-hand look at the all-new Wood Grain Impressions™ Finishes Collection on Classic Steel Models 8300/8300AG and the Carriage House Steel Model 9405.

The International Builders' Show stands as the premier gathering place for thousands of industry experts to educate, exchange ideas and discover the latest in technology and industry trends. Located at booth C8408, Wayne Dalton® will offer attendees of North America's largest residential construction event a glimpse into its customizable and durable products that elevate home curb appeal and help improve resale value.

"Building on our 70-year legacy of crafting high-quality, stylish garage doors, we wanted to showcase our enduring classics and new designs at the International Builders' Show this year," Wayne Dalton Brand Manager Alexandria Ligorotis said. "Our Carriage House Steel Model 9405, a longstanding favorite, alongside the all-new Wood Grain Impressions™ Finishes Collection, offers the natural beauty of wood in a resilient steel format, blending innovation with timeless design to add eye-catching curb appeal to any home."

WAYNE DALTON PRODUCTS TO BE SHOWCASED AT BOOTH C8408

Wood Grain Impressions™ Finish Collection on Classic Steel Models 8300/8300AG

Wayne Dalton's Wood Grain Impressions™ Finish Collection on Classic Steel Models 8300/8300AG is a paradigm of modern engineering in garage door design. Utilizing high-resolution digital printing technology, it offers four unique wood designs - Beachwood Plank, Carbon Oak Plank, Cedar Plank and Medium Oak Plank. Each door showcases a distinct, non-repeating wood grain pattern, ensuring individuality and character in every design. These doors are designed to complement any architectural style, from sleek modern to traditional homes, and offer unparalleled versatility and minimal maintenance.

This product brilliantly combines the beauty appeal of wood with the unbeatable strength of steel, ensuring homes not only look inviting but also stand up to the challenges of time. Gone are the days when we had to compromise aesthetic value for durability.

Carriage House Steel Model 9405

Wayne Dalton's Carriage House Steel Model 9405 is versatile and low-maintenance, offering a variety of carriage house designs, large windows and a wide range of custom colors and stain options. These carriage house garage doors offer embossed, high-tensile steel panels that give the look of wood with the strength of steel. This door also offers pinch-resistant panels and the TorqueMaster® Plus, Wayne Dalton's exclusive counterbalance system that safely contains springs inside a steel tube.

In addition to showcasing the Carriage House Steel Model 9405 and the Wood Grain Impressions™ Finish Collection, Wayne Dalton will also feature a dedicated kiosk for their Classic Steel Models 9100 and 9605. These models are among the company's bestsellers, renowned for their ease of installation and superior insulation value.

Each model is equipped with multiple wind load options and impact resistance levels, perfect for coastal or high-wind regions. They also feature foamed-in-place polyurethane insulation, which improves thermal efficiency, blocks street noise and enables quieter operation.

The 2024 International Builders' Show will be hosted in Las Vegas, Nevada, Feb. 27- 29.
