CLASSIC STEEL

Versatile Styles and Superior Insulation

Classic Steel Models 8300/8300AG and 8500/8500AG combine durable steel construction with industry-leading insulation to deliver exceptional energy efficiency and long-lasting value. With versatile design options and superior thermal performance, these garage doors are the perfect choice for any home and climate.

Model 8300/8300AG: The ultimate blend of style and substance, this door offers the **widest variety of designs** to complement any home, from traditional to modern. With **durable steel construction** and one of the **highest insulation values available**, it delivers exceptional energy savings and long-lasting value for homeowners who demand the best.

Model 8500/8500AG: Built for extreme performance, this door features **our thickest insulation** to provide **superior thermal efficiency**, making it the ideal choice for homes in challenging climates. Its robust design ensures maximum comfort, reduced energy costs, and superior durability. Whether you're looking for unmatched design flexibility or enhanced energy savings, these models deliver exceptional performance without compromise.

Available with the TruChoice® Color System, Wayne Dalton's custom painting process that offers more than 6,000 colors. See dealer for details.

Panel designs and colors shown are representational only. Panel designs may vary based on selected configuration and actual colors may vary due to fluctuations in the printing process. Always request a color sample from your Dealer for accurate color matching.

FEATURES

Effective Joint Seals

Snug-fitting tongue-and-groove section joints reduces wind and weather from entering the garage.

Heavy Gauge Steel End Caps

Wrap-around end caps trim out door edges for better appearance, improved strength and protect the insulation from damage.

Silent Glide Rollers

Nylon rollers with solid steel shafts provide years of smooth, quiet and dependable operation.

High Cycle Spring Option

Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring.

Wind Load Options Available

with structural reinforcements for use in coastal or high wind regions.

Limited Lifetime Warranty

THERMAL PERFORMANCE

Foamed-In-Place Polyurethane Insulation

Thermally efficient with a U-factor*  of .15 and an R-value** of 12.12 for Model 8300 and a U-factor*  of 0.12 and an R-value** of 16.22 for Model 8500.

Wayne Dalton participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.

*U-factor is independently tested and verified per ANSI/DASMA 105 using solid doors and specific product sizes.

**Wayne Dalton uses a calculated door section R-value for our insulated doors.
