Doors with the WindSafe® logo comply with requirements of one or more approval agencies, including: the Florida Building Code, Texas Department of Insurance and Miami-Dade County (FL).

Doors with the Impact logo have been rated for impact resistance.

Wayne Dalton participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.

U-factor is independently tested and verified per ANSI/DASMA 105 using solid doors and specific product sizes.

Wayne Dalton uses a calculated door section R-value for our insulated doors.

Safety. Style. Performance.

Model 8800, Black anodized aluminum, White Laminated privacy glass

Transform Your Home. Elevate Your Curb Appeal.

The right garage door can make all the difference. From eye-catching styles and beautiful colors to custom windows and hardware, Wayne Dalton gives you countless ways to create a look that's uniquely yours. Refresh your curb appeal and transform your home with design options that fit your style.

A Perfect Pair for Your Garage.

PROFESSIONAL LINE +

Complete your garage with a Wayne Dalton® garage door and Genie® garage door opener. Together, they combine beautiful design, dependable performance, and smart technology that makes everyday life a little easier. With trusted brands working seamlessly together, you'll enjoy reliable operation and peace of mind every time you come and go.

DESIGNER FIBERGLASS

Artfully molded wood grain fiberglass surface combined with durable steel construction gives you the look and warmth of wood with the strength of steel and less maintenance.

CONTEMPORARY ALUMINUM

A revolutionary aluminum full-view door from Wayne Dalton, the Model 8450 Luminous® is stylish and sleek.

Glass panels are mounted on top of an aluminum structure for an ultra-modern, frameless look on an easy-to-maintain door.

- Hardware is powder coated to match aluminum structure
- Reinforcing fins along with heavy-duty track and brackets help provide years of smooth, trouble-free operation
- Tongue-and-groove joints provide a great weather barrier

SPECIALTY VINYL

Engineered to be maintenance-free and provide an elegant look that will last a lifetime. These doors won't rust, fade, crack or dent and are great for coastal areas with lots of moisture and wind wear.

- Model 8700 comes in two panel designs that offer the timeless design of freshly painted hardwood
- This door has full PVC color construction. This means scratches will never show because the color goes all the way through the material
- The UV-Resin used in the door's construction contains special polymers that protect the door sections from the sun's harmful ultraviolet rays
- Polyurethane insulation is permanently bonded to the vinyl skin for U-factor  of 0.24 and an R-value of 11.75
- Twin 20-gauge steel C-channels run full length of each panel and are anchored to interior steel stiles for strength

PERFORMANCE AND SAFETY

Door panels are engineered with a pinch-resistant design to prevent finger injuries while the door is closing. Available on Models 9100, 9405 and 9605.

The TorqueMaster® Plus counterbalance contains springs safely inside a steel tube to prevent accidental release of tension that could cause injury. Subject to size limitations. Available on Models 8000, 9100, 9405, 8310, 9605, 8670 and 8680.

Models 9100 and 9605 feature horizontal integral struts at the top and bottom of door sections which adds rigidity and strength for long life and smooth operation.

SilentGlide™ rollers have nylon wheels and solid steel shafts to provide years of smooth, quiet, dependable service. Available on all Classic Steel models and Carriage House Steel Model 8670.

The bulb-shaped bottom seal remains flexible even in extreme cold to help keep the bad weather outside.

Features not available on all models. See dealer for details.
