SPECIALTY VINYL

DOOR FEATURES

Foamed-in-place polyurethane insulation

with a U-factor*  of 0.25 and an R-value of 11.75** is permanently bonded to the vinyl skin for thermal efficiency, durability and added rigidity.

Twin 22-gauge steel C-channels

run full length of each panel and are anchored to interior steel stiles for strength.

**U-Factors are based on independent testing and verified per ANSI/DASMA 105. For products other than aluminum full-view doors, testing was conducted on specific sizes of solid doors. Actual thermal performance may vary by door size and configuration.*

***Wayne Dalton uses a calculated door section R-value for our insulated doors.*

Durable door construction

PVC color construction means scratches are less visible because the color goes all the way through the material. The UV-Resin used in the door's construction contains special polymers that protect the door from the sun's harmful ultraviolet rays. Ideal for coastal regions for its resistance to salt air and sand.

TorqueMaster® Plus Counter Balance System

Contains springs safely inside a steel tube to prevent accidental release of tension that could cause injury and features anti-drop safety technology.

High Cycle Spring Option

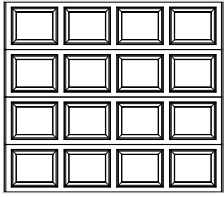

Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring.

Wind Load Options

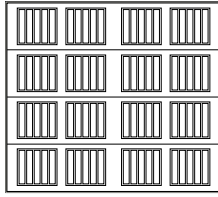

Available with structural reinforcements for use in coastal or high wind region.

1 Choose Your Style

Colonial

Sonoma

2 Choose Your Color

Glacier White

Adobe Cream

Monterey Sand

Cape Cod Gray

Actual door colors may vary slightly from the brochure due to fluctuations the printing process. Always request a color sample from your Wayne Dalton Dealer for accurate color matching.

Garage Door DESIGN CENTER

Discover the perfect garage door for your home with our Garage Door Design Center. Upload a photo of your home, experiment with panel designs, colors, window styles, and decorative hardware, and visualize the transformation. Try it today by scanning the QR code or visiting wayne-dalton.com—your journey to enhanced curb appeal starts with just a click!

THERMAL PERFORMANCE

Wayne Dalton participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.
