

Sonoma panel, Glacier White finish, Stockton I windows

Engineered to be maintenance free for easy-care living, Model 8700 won't rust, fade, crack or dent.

DOOR FEATURES

Foamed-in-place polyurethane insulation

with a U-factor* of 0.24 and an R-value of 11.75** is permanently bonded to the vinyl skin for thermal efficiency, durability and added rigidity.

Twin 22-gauge steel C-channels

run full length of each panel and are anchored to interior steel stiles for strength.

Durable door construction

PVC color construction means scratches are less visible because the color goes all the way through the material. The UV-Resin used in the door's construction contains special polymers that protect the door from the sun's harmful ultraviolet rays. Ideal for coastal regions for its resistance to salt air and sand.

TorqueMaster® Plus Counter Balance System

Contains springs safely inside a steel tube to prevent accidental release of tension that could cause injury and features anti-drop safety technology.

High Cycle Spring Option

Choose a 25,000 cycle spring for more than twice the life of a standard torsion spring.

Wind Load Options

Available with structural reinforcements for use in coastal or high wind region.

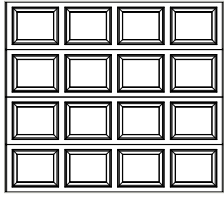

15 Year Limited Warranty

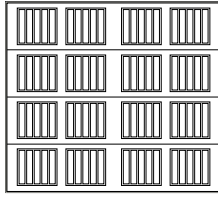

*U-factor is independently tested and verified per ANSI/DASMA 105 using solid doors and specific product sizes.

**Wayne Dalton uses a calculated door section R-value for our insulated doors.

1 Choose Your Style

THERMAL PERFORMANCE

Wayne Dalton participates in the DASMA Thermal Performance Verification Program. The program verifies the thermal performance of sectional garage doors. The lower the U-factor rating, the better the thermal performance.

Symbol indicates verified U-factor rating in accordance with the DASMA Thermal Performance Verification Program.
